

# BI Engineer Cloud (m/w/d)

full-time position to be filled as soon as possible in our division IT in Kleinostheim near Aschaffenburg.

UTA Edenred is one of the leading mobility service providers in Europe. In the 40-country UTA acceptance network, commercial customers can refuel, charge e-vehicles, use numerous other services such as toll processing, breakdown and cleaning services as well as innovative digital solutions for fleet management.

## Your Responsibilities:

- Analyse business requirements for DWH
- Realize data integration processes
- Test- and quality assurance
- Process- and development documentation
- Administration, monitoring and maintenance DWH environment
- Opportunity to impact a new Warehouse in a cloud based approach

## Your Profile:

- Successfully completed studies in the field of computer science or mathematics or a comparable degree
- Practical experience in building, running and maintaining DWH on cloud processes for more than 3 years
- Well experienced in data integration tools (preferred Azure data factory)
- Nice to have: experience working with Azure Synapse
- Strong SQL know how
- Good relational data modelling skills
- Fluency in German and English

## What we offer?

### Flexible working hours

The perfect compatibility between family and work is important to us.

### Canteen

We offer a varied and healthy menu in our in-house company restaurant.

### Mobile working

Whether you are working from home or on-site with your team, flexibility is a top priority for us.

## Interested?

Please send your application together with your salary expectation and your earliest possible starting date via E-mail to [personal@uta.de](mailto:personal@uta.de).
