

We move the digital transformation. With you?

UTA Edenred ensures **professional mobility throughout Europe**. It is important to us that you want to make a difference! We are looking for a full-time position in Kleinostheim near Aschaffenburg as of now:

Data Platform Engineer (all genders)

Your tasks:

- You configure and manage cloud services as well as monitoring, and log management tools
- Ensuring a highly available, scalable, and secure infrastructure is part of your core tasks
- You take care of testing, deploying code, and keeping an eye on performance and documentation
- You take the lead in team training, fostering a strong understanding of tools and practices
- With your excellent interpersonal and intercultural abilities, you master project management techniques

Your profile:

- You hold a Bachelor's degree in Computer Science, Electronics, Mathematics (or equivalent)
- Several years of hands-on experience in Cloud and Data Distribution environments have shaped your deep understanding
- You bring strong knowledge of SQL, Python and Data Bricks, with hands-on experience in these technologies
- You have hands-on experience with cloud technologies, ideally Microsoft Azure
- Communication skills in English make it easy for you to collaborate effectively across teams and regions
