

Head of Business Applications (m/f/d)

full-time position to be filled as soon as possible in our division Technology in Kleinostheim near Aschaffenburg.

UTA Edenred is one of the leading mobility service providers in Europe. In the 40-country UTA acceptance network, commercial customers can refuel, charge e-vehicles, use numerous other services such as toll processing, breakdown and cleaning services as well as innovative digital solutions for fleet management.

Your Responsibilities:

- Support the design and execution of the IT strategy
- Ensure stable and efficient IT operations of core legacy Backoffice applications (billing, invoicing, transactions, toll services, customer/supplier data and processes, enterprise content management, team collaboration software and messaging)
- The delivery of projects and demands related to the current IT landscape: small enhancements, balanced between existing solutions and new platforms
- Decommission legacy applications and define migration scenarios
- Support budget/forecasting of parts of IT expenditures: resources planning, financial controlling

Your Profile:

- You have at least 6 years of experience in multi-team management in an internationally acting organization
- You have experience in decommissioning strategy, rationalization strategy and migration to new solutions (including co-existence, etc.)
- You have proven leadership skills, with the ability to develop and communicate objectives, inspire and motivate teams, and maintain alignment with business and IT
- You are experienced with IBM products (DB2, iSeries, Lotus Notes), Java and Atlassian suite
- You are fluent in English and desirably in German

What we offer?
