

We develop products and services that make many things easier. And you?

UTA Edenred ensures **professional mobility throughout Europe**. It is important to us that you want to make a difference! We are looking for a full-time position as of now:

Product Manager (all genders) - EV

Your responsibilities:

- Contribute to the EV charging product vision and strategy for Edenred's European Fleet Manager platform, covering road, home, and workplace charging use cases
- Design and execute the EV squad's product roadmap, owning the full lifecycle from ideation to release while ensuring business goal alignment
- Collaborate with internal stakeholders and other Edenred operating companies across Europe, consolidating technical integration with 3rd-party systems to scale EV solutions
- Conduct EV-specific market and user research, prioritize feature development, and ensure products meet customer needs effectively
- Monitor product performance via data analysis and user feedback, communicate milestones company-wide, and maintain high-quality delivery standards

Your profile:

- Bachelor's or Master's degree in Business Administration, Industrial Engineering, or Information Technology with proven product management experience in innovative, tech-driven environments with complex product ownership
- Advanced experience in Electric Vehicle charging solutions
- Strong proficiency in agile product management, product strategy, user research, prioritization, and key product tools (e.g., Atlassian, Figma)
- Proven ability to manage products end-to-end, with strong discovery, design, and backend/API integration expertise
- Strong communication, collaboration, and leadership skills, working effectively with diverse stakeholders and fostering a positive, hands-on approach
- Data-driven mindset, agile way of working, readiness for Transformation
- Fluent in English, with German or another European language considered a strong advantage
